

Secure email user guide

The security of customer and colleague data is of utmost importance to us. We use an encrypted email function to protect sensitive material sent to you via email from unauthorised viewing or malicious intervention.

When a Quilter employee sends you an encrypted email the system will send the message to a secure portal. You will receive a message informing you that you have received an encrypted message from Quilter. You will need to either register or login to the portal to retrieve the email, download attachments and directly reply to the Quilter sender.

Although additional software is not required to receive encrypted emails from Quilter, you will need to complete an initial registration process. Instructions on how to do this, and how to retrieve and reply to an encrypted message, are set out in the following guide.

Registering with Quilter encryption

- ▶ The first time you receive a secure message from Quilter, you will be prompted to create an account to register with Quilter Encryption.
- ▶ Put in all your details

Registration

Create your account to read secure email.

[+ Password Policy](#)

Email Address:

First Name:

Last Name:

Password:

Confirm Password:

We have sent a validation code to your email address. Please check your inbox for the code and enter it below. If you did not receive it and need another code: [Click here](#)

Validation Code:

Continue

Please note: Your password cannot contain spaces.

- ▶ A code will be sent to email once the new password is confirmed – enter the code and click **Continue**

- ▶ Choose a security question

- Your childhood best friend
- First pet's name
- Your favorite food
- Favorite sports team
- High school you attended
- Your first car
- Favorite book or author
- Movie you've always liked
- Your first real job
- Favorite cartoon character

- ▶ Once the security question has been completed, the secure email account will be registered.
- ▶ The next time you want to read a secure message, you will be prompted to log in to the Proofpoint Portal using your password.

Reading a secure message

- ▶ When you receive a secure message, it will look similar to this in your mailbox:

Quilter

This is a secure message.

[Click here](#) by 2019-03-01 13:56 GMT to read your message. After that, open the attachment.

Disclaimer: This email and its content are confidential and intended solely for the use of the addressee. Please notify the sender if you have received this email in error or simply delete it.
Secured by Proofpoint Encryption, Copyright © 2009-2018 Proofpoint, Inc. All rights reserved.

- ▶ The link in the email will be active for 7 days only. If the link has expired, you will have to re-request the email.

Open the attachment

- ▶ The attachment in the email provides the screen below.

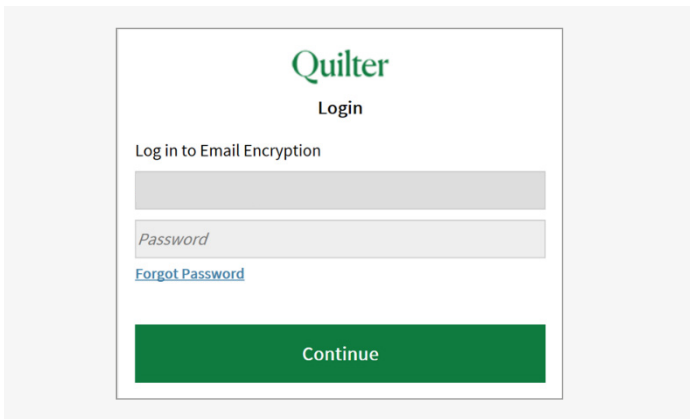

- ▶ If this is the first time you are receiving a secure message, you will be prompted to register with the Quilter encryption portal.
- ▶ Click the 'Click to read message' button

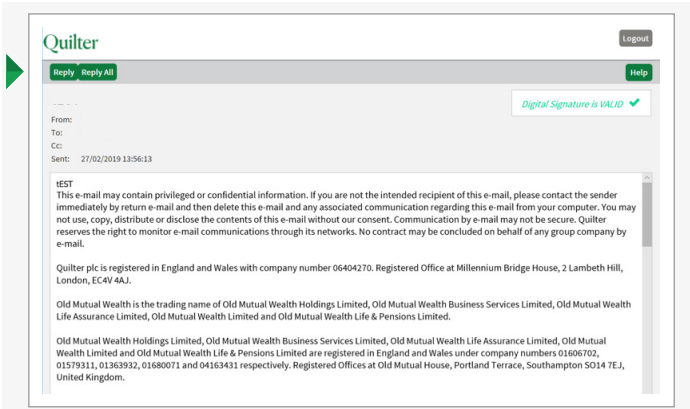

Please note: the 'More info' link will take you to a 'How to' section':
▶ https://securemail.quilter.com/help/enus_encryption.htm

Reading your message

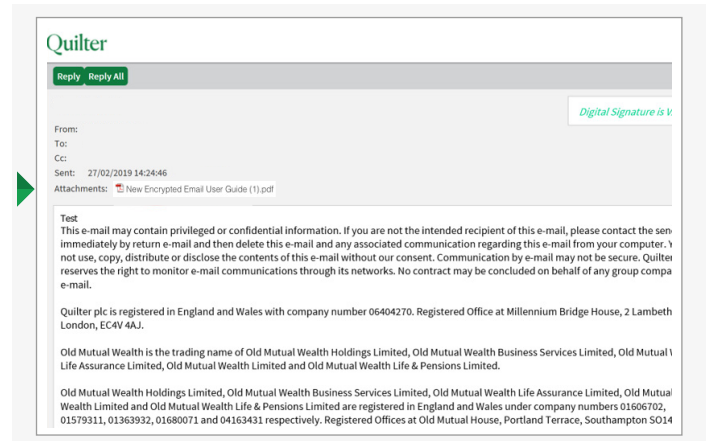

- ▶ Clicking the link in the email or clicking the "click to read message" takes you directly to the login screen shown below:

- ▶ Once you are logged in to the portal, you will receive the email content and can 'reply/reply all' for the specific message

- ▶ Any attachments are shown on the emails and can be downloaded;

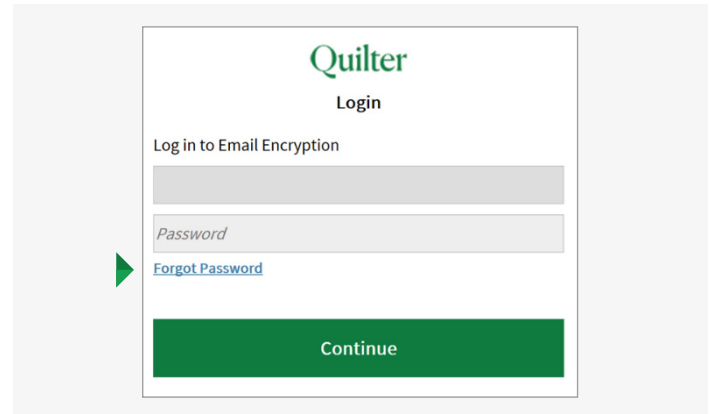

- ▶ Click **Logout** when you are done.

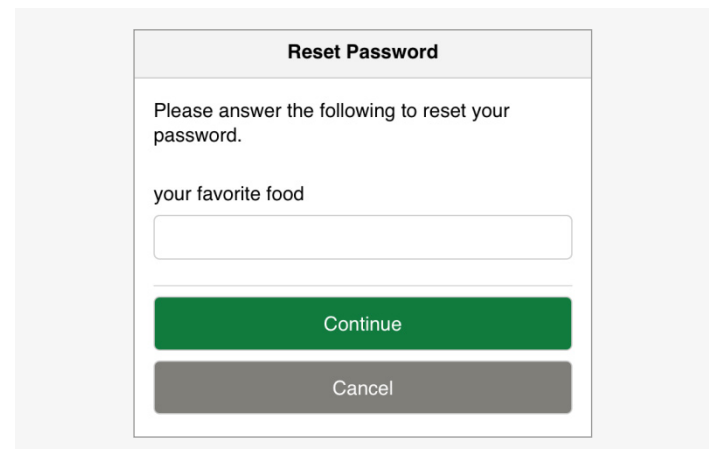

If you forget your password

- ▶ If you forgot your password, click the Forgot Password link.

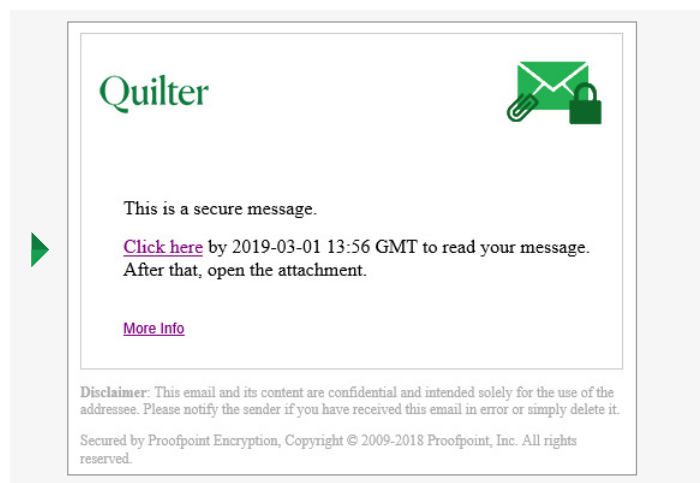

- ▶ You will be prompted to answer the security question and then will then be prompted to reset your password.

Decrypting secure messages from a mobile device

- ▶ When you receive a secure message, it contains a link that you can click to decrypt the message and read it on your mobile device.
- ▶ This link will be active for 7 days only.
