WealthSelect Managed Portfolios

Investor type	An investment solution offering a series of portfolios for a retail customer of a financial adviser who has selected the Quilter platform for custody. The customer, whose objectives can be met by one of the portfolios, should wish to delegate the day-to-day investment decisions to a portfolio manager.
Knowledge and experience	Suitable for customers with basic financial knowledge through to experienced investors.
Ability to bear loss	Suitable for customers who are willing to take some investment risk and have capacity to accept a capital loss, consistent with the risk profile of the portfolio, as assessed by their financial adviser. This service offers no capital guarantees.
Risk tolerance	The service offers a series of portfolios aligned to different risk tolerances. It cannot cater for customers who are not prepared to take any risk to capital.
	Suitable for customers whose objectives and risk tolerances align to one of the portfolios' objectives. The service is appropriate for customers who: > are seeking a long-term return in the form of capital growth.
	> prefer to have investment decisions made by a portfolio manager, rather than have personal day-to-day involvement.
Client's objectives and needs	> do not have specific Environmental, Social and Governance (ESG) requirements and simply want to maximise returns for an agreed level of risk.
	• expect ongoing service from their financial adviser who is responsible for assessing suitability and can help them understand the risk/reward profile and features of the portfolio
	▶ do not need the management of their investments to consider Capital Gains Tax.
Minimum recommended holding period	Suitable for customers who intend to invest for at least five years.
Distribution strategy	The service is marketed to financial advisers who use the Quilter platform.
Negative target market	This service is not suitable for:
	▶ customers not willing to delegate investment decisions or customers wishing to make their own decisions to trade.
	• customers who do not have an ongoing relationship with their adviser and expect to carry out execution-only business in future.
	▶ customers who want direct contact with a Portfolio Manager.
	• customers who do not want to take any investment risk or do not have a capacity for any loss.
	• customers with specific investment preferences or restrictions. For example, customers who have specific ESG targets in mind and/or who want to minimise exposure to
	unsustainable or controversial areas.
	 Customers who intend to invest for less than five years.

Past performance is not a guide to future performance and may not be repeated. Investment involves risk. The value of investments and the income from them may go down as well as up and investors may not get back the amount originally invested. Because of this, an investor is not certain to make a profit on an investment and may lose money. Exchange rates may cause the value of overseas investments to rise or fall.
